

TURBOION
ADVANCED TECHNOLOGY

The New Classic flat iron is a salon quality tool that allows you to style like a professional. The New Classic flat iron is a fully digital unit with 19 temperature options ranging from 270-450. The CROC Classic's unique ergonomic design and proprietary ceramic heating system allows you to straighten and style the hair with one pass, saving you time. The ceramic technology also prevents your hair from further damage and dryness when straightening or styling with a hot tool. Your hair is left silky and soft. The New Classic flat iron is the #1 hair iron used for Keratin treatments among professional stylists.

Size - 1", 1.5"
Stylist Price - \$120.00

The CROC Premium iron combines professionalism and luxury. This iron not only meets your styling needs, but provides you with a styling experience that exceeds expectation. Featuring 100% titanium floating plates (for a perfect glide), an ergonomic body design, a color changing cool tip and heat indicator, as well as extended plate lengths, this iron creates the ultimate styling experience.

Size - 1.5"
Stylist Price - \$160.00

The CROC Designer iron features a rounded barrel and compact design therefore easy to handle. It's rounded shape creates perfectly round curls and volume to the hair. Its easy touch controls, fully digital temperature settings, black floating titanium plates, and ceramic heater brings will take your styling techniques to another level.

- Features Revolutionary ATR (Automatic Temperature Reserve) System to extend the longevity of the iron while keeping the handle cool
- 40 minute Auto Shut Off safety feature
- ATR and Auto Shut Off keeps iron safe and conserves

energy

- Smooth Nano Black Titanium Plates allow effortless glide
- Fully Digital, 18 custom temperature settings from 280°F to 450°F
- Floating Plates and Rounded Barrel creates vivacious curls, flips, and straight styles
- Far-Infrared and Ionic Benefits
- 3/4 inch, compact, and easy to handle

Size - 1"

Stylist Price - \$110.00

The CROC Hybrid iron's rounded design is perfectly suited for versatile styling from straight to curly. The floating plates offer the smoothest glide and a firm press without "catching" or snagging the hair for ultra sleek, shiny results. The Hybrid iron is also fully digital with 18 custom temperature settings, intelligently converts from Celsius to Fahrenheit therefore perfect for travel.

Size - 1", 1.5"

Stylist Price - \$140.00

On the hunt for perfect curls? Look no further! **The CROC Hybrid Curling Iron** utilizes a spring-style clamp and Marcel-like rotating barrel to create beautiful, effortless curls. Lock the barrel in to use a traditional spring styling technique, or unlock it and allow the Marcel-like rotations of the barrel to whirl your hair into a masterpiece. Choose between three different temperatures from 370°F, 400°F and 430°F. The CROC curling iron features an advanced ceranyx (ceramic + onyx) barrel which constantly radiates far-infrared rays and negative ions into the hair while styling. Its dual voltage option is also perfect for travel.

- **HYBRID FUNCTION (Spring Iron + Marcel Iron):** Spring-style clamp and Marcel like rotating handle makes it easy for wrapping the hair around the barrel evenly and for quick and easy styling
- **ADVANCED CERANYX (CERAMIC + ONYX):** With heat,

the advanced ceranyx (ceramic + onyx) barrel is constantly radiating far-infrared rays and negative ions into the hair

- **DOUBLE HEATING SYSTEM** heats up quickly; Maximum temperature 430°F
- **LED DIGITAL DISPLAY:** 3 heat settings; apply to all kinds of hair
- **COOL TIP TEMPERATURE INDICATOR:** When the temperature is up to workable grade, the circle will change color to white
- **AUTO SHUT OFF** setting is activated when no movement is detected in 50 minutes
- **DUAL VOLTAGE 100V~240V:** worldwide usage
- **360° SWIVEL CORD** never tangles

Sizes - .75", 1", 1.25"

Stylist Price - \$90.00

The CROC Designer Blow Dryer contains a powerful AC motor, is lightweight, specially designed for optimal air flow, and enhances styling and drying time. Turn the ionic generator "on" and allow negative ions to create a conditioning effect on the hair, and to seal the hair cuticle for smooth, less frizzy hair.

The CROC Hybrid Blow Dryer is a dual function dryer specially designed for all hair types. Built with an ionic generator, this optional feature allows the user to customize their styling. Turn the ionic generator “on” and allow negative ions to create a conditioning effect on the hair, and to seal the hair cuticle for smooth, less frizzy hair. The CROC Hybrid Blow Dryer is perfect for blowouts and to use on overly curly, prone to frizz or thick hair. The AC/DC combined power makes this dryer more powerful while remaining lightweight.
